MOOSA K A

Software Engineer / Full Stack Developer

+917560873137 moosabilal75608@gmail.com LinkedIn GitHub Portfolio Manjeshwar, India

PROFESSIONAL SUMMARY

Highly motivated Software Engineer & Full Stack MERN Developer with 1+ years of experience building scalable, high-performance web applications and supporting core API operations. Adept at developing clean backend logic, optimizing database queries, and integrating secure third-party APIs. Proven ability to deliver robust applications by adhering to Clean Architecture principles, enforcing codebase standards, and driving end-to-end deployments in collaborative environments.

WORK EXPERIENCES

Full Stack MERN Developer | Intern | Full-time — Oct 2024 - Present

Brototype — *Hybrid • kozhikode*

- Built responsive UIs and backend logic strictly following **Clean Architecture** and **SOLID principles**, **reducing feature deployment time by ~15%**
- Designed, integrated, and documented **30+** core **REST APIs** for secure third-party data handshakes, consistently maintaining response times under **200ms**
- Debugged front-end layout shifts and server-side script errors, improving runtime stability and ensuring a **99%** crash-free experience during testing
- Managed **MongoDB** schemas and optimized **PostgreSQL/MySQL** queries via advanced indexing, reducing transactional data retrieval times by up to **20%**
- Maintained API specs and **Git/GitHub** workflows across multiple projects, managing **100%** of PRs and merge conflicts for codebase transparency

Technologies / Skills Used : *MongoDB, PostgreSQL, MySQL, REST APIs, Git, GitHub*

PROJECTS

QuickMate — Job Service Platform | Github Website

- **Architected a modular MERN/TypeScript backend** using the **Repository Pattern**, strictly mapping **13 core data models** (e.g., Booking, Wallet) for **SOLID scalability**
- Engineered **peer-to-peer WebRTC communication** with sub-200ms latency and integrated **Razorpay & Cloudinary APIs** for seamless media and payment processing
- Developed secure **JWT authentication** and a double-entry ledger Wallet system, achieving **100%** transactional accuracy for earnings, refunds, and subscriptions
- Integrated the **Google Gemini API** to engineer a context-aware AI chatbot, leveraging strict System Prompting to enforce **5+** complex business logic workflows

Technologies / Tools Used : *MERN, TypeScript, WebRTC, Razorpay, Cloudinary, JWT, Google Gemini API*

Eagleswing — Fashion E-Commerce Platform | Github Website

- **Architected a Node.js/EJS storefront**, achieving a **90+** Lighthouse SEO score and reducing load times by **30%** via SSR
- Engineered secure **Razorpay checkout flows** and a custom wallet system, achieving **100%** test transaction success
- Optimized complex **MongoDB** inventory queries via advanced indexing, reducing database read latency by up to **40%**
- Deployed a scalable production build on **AWS EC2** with an **Nginx** proxy, handling **500+** concurrent user requests

Technologies / Tools Used : *Node.js, EJS, Razorpay, MongoDB, AWS EC2, Nginx*

SKILLS

Databases :	MongoDB, Mongoose, PostgreSQL
Frameworks & Libraries :	React.js, Redux, Tailwind CSS, Bootstrap, EJS
Languages :	English, Hindi, Malayalam, Kannada, Tamil
Programming Languages :	TypeScript, JavaScript, SQL, HTML5, CSS3, Python
Soft Skills :	Clean Architecture, Repository Pattern, SOLID Principles, DSA, Database Query Optimization
Tools & Platforms :	Node.js, Express.js, AWS, Git, GitHub, Nginx, Postman, Figma, Vercel, Render

EDUCATIONS

Brototype | kozhikode — Oct 2024 - Present

Full Stack Development Program

- Intensive hands-on training in **MERN** stack development, software engineering, and system architecture.

Shree Devi College (Mangalore University) | — Jul 2021 - Jul 2024

Bachelor of Computer Applications (BCA) — *CGPA : 8.5*

- **Bachelor of Computer Applications** from **Shree Devi College**
